The Georgia International Horse Park was created for the 1996 Centennial Olympic Games

In exploring recreational opportunities for additional uses of this property, which is owned by the City of Conyers, a consultant reported that state-of-the-art equestrian facilities would be desirable in Georgia. Such a facility would be feasible economically, compatible with land application, and would provide additional recreational needs, including athletic fields and a public golf course. City officials welcomed the idea and began to explore ways of making it a reality. In the early 1990s Atlanta was chosen as the host city for the 1996 Centennial Olympic Games. After competing with over 20 other communities, Conyers was selected to host the Equestrian, Mountain Biking and the final two events of the Modern Pentathlon. It was then that the Georgia International Horse Park (GIHP) became a reality.

The Legacy: A Great Place For Recreation

Today, the legacy continues as the Georgia International Horse Park hosts hundreds of athletic events, equestrian competitions, concerts, fairs, festivals and other special events each year.

WHAT TO DO AT BIG HAYNES CREEK NATURE CENTER

Big Haynes Creek Nature Center Trails lead through native Georgia landscapes that we often take for granted around us.

Follow the Purple Trail to visit boardwalks and docks for a close look at the complete wetlands supporting your local water supply system.

Walk the Blue, Yellow, Pink and Orange Trails through a diverse southeastern forest of hardwoods and pines.

Paddle the Water Trail by canoe or kayak from the south side of the wetlands to the boardwalk on the north side for a great place to look for wildlife.

Interactive learning stations on the Purple Trail help you understand each different ecosystem and its inhabitants. You'll find engaging activities and information on how to identify animal tracks, how to listen for and recognize bird calls, and how to do your part in processing the natural world around you.
