## ACCOMMODATIONS & DINING

---

Our guest cabins provide 20 private rooms, allowing no more than 40 guests to enjoy Cabin Bluff at any given time, ensuring a secluded and uncrowded experience. Comfortable cabins, featuring luxuries like upscale linens and toiletries, reflect a rustic elegance well in character with Cabin Bluff's fabled history and natural surroundings.

Cabin Bluff's coastal location also creates the opportunity for a spectacularly fresh and flavorful menu - from home-style breakfasts and fresh and light midday meals, to marsh side oyster roasts and open-air cookouts. You will find your plate overflowing with everything from hand-rubbed and seasoned tenderloin, to some of the most decadent fried chicken you'll ever experience or an expertly prepared assortment of fresh vegetables and local seafood.

## FISHING

---

Experienced anglers have long regarded the waters of the Georgia coastline as a treasure for all those who wish to test their skills against redfish, bluefish, sea trout, tarpon and an almost endless list of other native fish. Expertly guided charter fishing trips along inshore and offshore waters — with all tackle furnished — can be easily arranged.

Nearly untouched, our waters remain one of the region's best-kept secrets. The low pressure put on the waters means fish are in abundance almost year-round. In fact, you're likely to experience an entire day on the water without seeing another boat.

Whether you prefer a day's excursion in the pursuit of white-knuckle tarpon fishing, or you enjoy light sight fishing trips to the inlets and estuaries that meander just off the shores of nearby Cumberland Island chasing redfish, fishing at Cabin Bluff is sure to be an experience you won't soon forget.
