

CABIN BLUFF

Cumberland River Retreat

EST. 1928

Welcome

TO
CABIN BLUFF

Absolutely insulated, and tucked between towering pines and the sparkling Cumberland River lies Cabin Bluff.

Established in 1928, Cabin Bluff has long attracted Presidents and distinguished sporting enthusiasts as a world-class hunting and fishing destination. Today, that distinction remains unchanged.

As one of the finest retreat facilities in North America, only a handful of properties can match the scope of Cabin Bluff's services. And by design, only a few people will ever experience them.

Here, history is everywhere—from the woods to the porches.

A productive day with good company and breathtaking surroundings—it doesn't get any better than this.

THE GREAT

Indoors

Unusually comfortable cabins reflect rustic elegance, in character with Cabin Bluff's history and surroundings. The main lodge and spacious guest cabins provide 20 rooms with private baths, and our 1,700-square foot conference facility is certain to spark thinking as inspired as it is focused. During your stay, you'll enjoy family-style Southern cuisine prepared by our talented Chefs. Cabin Bluff's distinct coastal setting provides unique venues for both indoor and outdoor dining experiences.

President Calvin Coolidge, Mr. Howard Coffin
and their wives. Circa 1927.

Hunting

Cabin Bluff has long been revered as a premier hunting destination. Here you can hunt in pristine quail fields accompanied by expertly trained Steady to Wing and Shot hunting dogs, or pursue a trophy deer, turkey and even wild boar. Our guides are always available whether you're a seasoned hunter or taking gun in hand for the first time. And Cabin Bluff is an affiliate of the Beretta Trident Program with a One Trident Rating for our upland bird hunting. A Beretta Trident rated venue represents the best of the best. Fewer than 5% of destinations worldwide would merit a single trident.

Fishing

Experienced anglers have long come to the Cumberland River to test their will and their wiles against redfish, bluefish, sea trout, tarpon and an almost endless list of native aquatic life. Expertly guided inshore and offshore charter fishing trips can be easily arranged. Whether you prefer the excitement of sport fishing, or light tackle trips to inlets and estuaries along Cumberland Island, you will not be disappointed.

From experienced angler to complete beginner, truly this is a fisherman's paradise.

In the field with quail in sight.

Golf

Designed by legendary PGA TOUR professional Davis Love III, our course boasts one of the few layouts of its kind. Six thoughtfully constructed greens – each played three distinct ways – create the eighteen hole course. Complex greens, well-placed bunkers and strategic water hazards blend with waterfront fairways to ensure a challenging, yet highly enjoyable experience for even the most avid golfer.

Nature & Wellness

The expansive grounds of Cabin Bluff offer an extraordinary variety of natural resources that encourage the pursuit of new adventures. Choose from kayaking, hiking, biking, shooting on our sporting clays course, swimming in our refreshing lap pool, playing tennis or bocce ball, or even taking a boat ride across the river to exotic Cumberland Island.

Wild horses on Cumberland Island—they've been running free for almost 500 years.

Shooting clays on the marsh.

OUR
Promise

Astonishing natural beauty. Exceptional sports and recreation. Assured privacy. Rustic charm. Attention to detail that's tailored around your wishes and your goals. These are the hallmarks of the complete Cabin Bluff experience.

We invite you to come, convene and immerse your group in the simple, uncomplicated pleasures that make Cabin Bluff as remarkable and treasured as it has always been, and remains today.
