

The “Bunk House” at Grove River Ranch (inside the stables)

Pictured above is the kitchen, completely stocked with all cookware and utensils and numerous small appliances to prepare meals. The living room area on the right faces a television with DVD and VHS players. Pictured below is one of the two bedrooms. The bunk house also features central heat and air conditioning and a large bathroom, pictured below on the right. An additional full bath with laundry facilities is just outside the door in the stables.
